

My Home Story

Share your stories and experiences to demonstrate the powerful impacts that affordable housing can bring our San Jose communities!

You can make a difference for affordable housing in your community.

Join with friends and make new connections through the San Jose-based “My Home Story” project, where affordable housing residents can **learn, engage, and lead** on affordable housing policy conversations to support our communities.

You’ll have opportunities to share your story, participate through in-person and online conversations, meet with policy makers, and more!

February 2018 – July 2018
